PETITIONS OFFICE

Adequate showing of unintentional delay

Further to the application of unavoidable delay, which was rejected, we are applying for unintentional delay. As we are new to the field of patent application we oversaw the note to reply with 3 months to office action. We actually did correspond with the examiner at this time by e-mail but this we understand now is not the formal method. We include the payment of \$640 to re-instate our application. Thank you for your time and consideration.

Sincerely,

Ashley Davis,

V-P of Cytoskeleton Inc.
